# AQUACULTURE GHANA 2023 EXHIBITION

THEME

**Fostering  
Stakeholder  
Collaboration For  
Sustainable  
Aquaculture Industry**

VENUE: WORLD TRADE CENTER-ACCRA

APRIL, 26 - 27, 2023

9:00AM

# Dear Participant

It is our great pleasure to welcome you all to the maiden Aquaculture Ghana 2023 event. The main object of this event is to bring together stakeholders in the aquaculture sector to network, share knowledge, expertise, and ideas on how to develop and sustain this important sector.

Aquaculture plays a critical role in Ghana's economy and food security and the sector has the potential to generate employment and improve nutrition. Therefore, it is crucial that we explore novel ways of promoting innovation, increase productivity and improve the standards within the industry.

During this event, we will have the opportunity to engage in meaningful conversations, network with aquaculture stakeholders, learn about best practices in aquaculture and display some of the innovations in the Ghana aquaculture sector. We have assembled a team of experts and thought leaders to deliver insightful presentations on various topics related to aquaculture such as fish health management, fish nutrition, market trends, finance, insurance, innovation, technology, and many more.

We would like to extend our gratitude to our sponsors, partners, speakers, various committee members and volunteers who have supported this event. We hope this event will lead to new partnerships and collaborations that will benefit the aquaculture sector in Ghana and beyond.

Once again, we welcome you all to Aquaculture Ghana 2023 event and wish you fruitful deliberations. Thank you.

Sincerely,

**Jacob Adzikah**  
CEO  
Chamber of Aquaculture

# TILAVAC S3

*Streptococcus agalactiae* serotype Ia, Ib, and III vaccine for Nile Tilapia

## Our Tilavac S3 Vaccine

This product is a trivalent oil-adjuvanted vaccine administered by intraperitoneal injections for the protection against *Streptococcus agalactiae* serotype Ia, Ib, and III, in Nile Tilapia (*Oreochromis niloticus*).

## Why Use Vaccines?

A prophylaxis solution for the sustainability of the aquaculture industry. An intraperitoneal injection vaccine for early onset immunity and eight month protection. Benefits rapid recovery rates during outbreaks. Reduces feed conversion and improves survivability during warmer seasons with higher effects when applying herd immunity.

## Specifications

**Inactivated vaccine.** Onset immunity at 600 degrees days. Eight-month protection. Administer 0.1 ml vaccine by intraperitoneal (I.P.) injection at the ventral side of the fish just behind the pectoral fin-tip. Vaccinated fish should have a minimum weight of 10 g. Zero-day withdrawal period. Storage at 2°C to 8°C. 24 months shelf life. 1000ml vaccine bottle format.

# SPEAKERS

**HON. MRS. MAVIS HAWA KOOMSON (MP),**  
MINISTER FOR FISHERIES  
AND AQUACULTURE  
DEVELOPMENT  
(MOFAD)

HON. MRS. MAVIS HAWA KOOMSON (MP), is the Minister for Fisheries and Aquaculture Development (MoFAD), and the Member of Parliament (MP) for Awutu Senya East Constituency in the Central Region, having won the Parliamentary Election since 2012.

She was born on 3rd February, 1966 in Sekondi in the Western Region, and a native of Salaga in the Northern Region. The Hon. Minister is a teacher by profession and had her teacher training education at the Evangelical Presbyterian College of Education from 1987 to 1991. The Hon. Minister enrolled at the University of Education, Winneba where she obtained a Diploma in Basic Education in 2006 and Undergraduate Degree in Basic Education in 2011. She holds a Postgraduate Diploma in Public Administration (DPA) and a Masters in Public Administration with specialization in International Relations and Diplomacy from the Ghana Institute of Management and Public Administration (GIMPA).

**MR. YOFI GRANT**  
CEO, GHANA INVESTMENT  
PROMOTION CENTRE

Yofi Grant is a renowned Ghanaian investment banker with over 30 years of extensive work experience in banking and finance. Having served in various capacities in corporate finance, credits, marketing, and investment banking, Mr. Grant has broad knowledge and exposure in the African financial markets and has cultivated strong relationships with international private equity funds, portfolio investment managers and brokerage funds. He was responsible for the development and implementation of AAF SME Fund LLC, one of the largest agriculture funds in Sub-Saharan Africa, and helped them achieve their first close of US\$30million.

Yofi is a council member of the Continental Business Network of the African Union which advises African governments on private sector finance and infrastructure and has served in many directorship roles in the following subsidiaries of the Databank Group. Databank Agrifund Manager Limited, Databank Financial Services Limited and Databank Brokerage Services Limited. In 2009, he was the Executive Director for Business Development for the entire Databank Group. Mr. Grant was a consultant on finance and business for the Africa Asia Business Forum (AABF) organized by the UNDP which run workshops in 12 African countries and six Asian countries in 2002.

**DR. ANIM SOMUAH**  
CHAIRMAN  
CHAMBER OF AQUACULTURE  
GHANA

He is the Chairman of the Council of Ghana Aquaculture Chamber and Director of Operations at Agromite Limited. He is an agricultural engineer and agribusiness development expert with over 30 years' experience in agribusiness with both organized smallholders and large-scale farmers. Henry has worked in various capacities as an agribusiness practitioner, public servant in the agribusiness space, an academic in the agribusiness and consultant in agricultural development.

# SPEAKERS

**MR. LANRE BADMUS**

Olanrewaju Badmus was a lecturer at Federal College of Animal Health and Production Technology (FCAH&PT), National Veterinary Research Institute (NVRI), Vom Plateau State, Nigeria. He served under National Youth Service Corps (NYSC) programme at National Veterinary Research Institute (NVRI), FCAH&PT Vom in (1998- 1999 ) and due to his outstanding contribution to the community service during the service year, he was honored with awards as the 2 nd best corps member by NYSC , a feat that earned him automatic employment.

He became the first fisheries staff at the National Veterinary Research Institute (NVRI) that was established in 1924. He pioneered fisheries and aquaculture into the oldest college in West Africa established in 1941 and rose to become the pioneer Head of Department from 2014 - 2016. He was apioneered Vice Chairman Plateau State Fish Farmer Cooperative Society (PLACFISH), Nigeria in 2004-2006.

Olanrewaju was elected 1st Regional director for the WAS-AC IN 2019 and has been instrumental in organizing aquaculture actors in the West Africa Region. This led to the successful hosting of the 1st hybrid Conference on Aquaculture in West Africa in collaboration with Chamber of Aquaculture (COA), Ghana in 2021. He coordinated several technical webinar on aquaculture that proceeded the conference. Lanre is looking forward to co-ordinate the hosting of the 2 nd Regional Conference on Aquaculture in West Africa ( Nigeria, 2023) in 14-17 May, 2023

Olanrewaju is a profession member of Fisheries Society of Nigeria (FISON), World Aquaculture Society (WAS) and International Institute of Fisheries Economic (IIFET) in United State of America respectively. He served in various capacity as assistant national secretary, national secretary, national vice president (Research & Training) of the Fisheries Society of Nigeria (FISON) respectively. He is currently a pioneer regional director of World Aquaculture Society African Chapter West Africa.

**MR. BLESSING MAPFUMO**  
EXECUTIVE SECRETARY  
WORLD AQUACULTURE SOCIETY  
AFRICAN CHAPTER

Mr Blessing Mapfumo (Zimbabwean nationality) is the Executive Officer (Secretariat) of the African Chapter of the World Aquaculture Society, which is housed at the Africa Union Development Agency (AUDA-NEPAD), South Africa. Within the WAS, his main role is to manage the Chapter's operations including the co-ordination of the annual Aquaculture Africa Conferences that connect a diverse aquaculture actors from Africa and around the world. Mr Mapfumo has over 20 years international work experience in fisheries and aquaculture and has authored a number of publications.

**SETH TWUM-AKWABOAH**  
CEO  
ASSOCIATION OF  
GHANA INDUSTRIES

Appointed CEO of AGI in 2011, Seth Twum-Akwaboah coordinates the activities of the 22 business sectors under AGI's membership. He was previously the coordinator of IntEnt Programme, a Dutch government initiative to support migrant entrepreneurs in the Netherlands set up businesses in Ghana. Joining AGI as a business development consultant, he later rose to head the AGI Business Development and Services Division as the Director. He holds a bachelor of arts (hons) degree in economics, geography, and resource development as well as an MBA from the University of Ghana. He currently chairs the Policy Committee of the Made in Ghana Campaign Committee of Ghana.

**PROF. FRANCIS K.E. NUNOO**  
CHAIRMAN FISHERIES COMMISSION  
BOARD

# Welcome to RAANAN FISH FEED WEST AFRICA

"The Best Partner For The Fish Farmer"

With 25 years experience in aquaculture, the company played a decisive role in the expansion of the fish farming industry in Ghana, providing fish farmers high-quality cost-effective fish feed consistently. Products are high standard and most raw materials for the fish feed are purchased from local farmers.

Raanan Fish Feed also provide technical assistance and share experience through Training Centres and Workshops to insure the success of its customers.

Due to the large number of species produced in Israel, a wide range of balanced nutrition and complete feeding programs has been developed by Raanan Fish Feed over the years. Our products provide outstanding solutions for a large number of growers and are based on extruded fish feed, crumbled starter feeds and organic fish feed. The factory established in Prampram, Ghana, produces Tilapia and Catfish feed for local producers in all Africa

Contact us also for your supplies high quality fish farm materials at reasonable prices to enable you as a fish farmer to go about your day to day farm duties effectively.

**LSAQUA**  
aquafeed innovators

## More than 100 years of experience

LSAqua is a young company who is developing sustainable alternatives to replace fishmeal from aquafeed diets by blending protein sources such as SCP, PAPs or vegetable proteins, where often the formula is adapted to customers' needs. At LSAqua, we pursue innovative and sustainable solutions with a clear commitment to social responsibility and safety. We are also specialized in angling products and ornamental fish.

## LSAQUA HAS BEEN BUSY IN WEST AFRICA!

This autumn we have been in Nigeria, Ghana and Benin giving support to our customers and looking forward to meeting new companies aligned with our values. LSAqua is delighted with the opportunity to growth with West Africa Aquaculture sector, to contribute to the feeding sector by decreasing the price and improving the quality, and to develop new products...

Lees verder

### ABOUT US

LSAQUA focuses on sustainability. Aquaculture and fish nutrition often suffer from a negative image. When Lambers Seghers started aquaculture in the aquaculture sector, we aimed to approach

this sector completely differently. This through the production of sustainable fish food and through the implementation of sustainable production methods in such a way that the environment is not harmed.

# CycleFarms

In April 2019, Cycle Farms launched its production unit in the Heavy Industrial Area of Tema in Ghana after two years of intensive research and development to develop its technologies. The company emphasizes providing customers with high-level support and farm performance, with its commercial team, assisted by its French technical team, always available to answer inquiries about fish farming practices.

Efficiency is a priority for Cycle Farms, which collaborated with clients and leading French research laboratories to develop its feed. As a result, it boasts unmatched quality in the market at a competitive price. The company carefully selects its raw materials and enforces rigorous quality control measures in its production process.

Cycle Farms' industrial sustainability strategy focuses on sourcing over 70% of its ingredients from within Ghana, close to its factory. The company engages in continuous dialogue with local suppliers to support their development and boost the resilience of local agriculture through its production system.

Cycle Farms places great importance on its human resources, investing heavily in training programs and ensuring that expert personnel is readily available to customers to provide exceptional products, services, and enhanced company performance.

In conclusion, Cycle Farms demonstrates its commitment to efficiency, industrial sustainability, and human resources cohesion in every aspect of its business.

## ABOUT US

We are a non-banking financial institution established to de-risk agricultural financing and stimulate increased lending to the agricultural sector, by financial institutions in Ghana

GIRSAL provides credit risk guarantees to financial institutions to increase lending to the agricultural sector in Ghana. We also provide technical support to improve their knowledge and understanding of the agricultural sector and to strengthen their capacity to assess, structure and manage agribusiness lending.

GIRSAL is a limited liability company wholly owned by the Government of Ghana through the Ministry of Finance and is capitalized with seed funding from the Bank of Ghana and the African Development Bank (AfDB)

## OUR MISSION

To provide credit guarantees and technical support to financial institutions and agribusinesses through well structured transactions, to increase agric lending

## OUR VISION

To be the catalyst for increased agricultural lending by financial institutions

## OUR CORE VALUES

Customer Focus | Commitment | Trust | Transparency  
| Technical Competence | Areas of Operation | Strategic Pillars

## CREDIT GUARANTEE SCHEME

Provides up to 70% credit risk guarantee on agricultural loans to reduce the risks of financial institutions and increase lending to the sector

## BANK RATING SCHEME

Rate financial institutions in Ghana based on their lending to agriculture, creating additional incentives for banks that are achieving impact in agricultural lending

## TECHNICAL ASSISTANCE FACILITY

To improve financial institutions' capacity to assess, structure and manage the delivery of loans to agribusinesses, and to support agribusinesses through partnerships

## INFORMATION RESOURCES

Providing financial institutions with access to agricultural and agribusiness finance information resources and tools to support agribusiness loan application assessment

# THE CHAMBER

The Chamber of Aquaculture Ghana was established in 2019 to promote specific needs of the aquaculture sector in Ghana as well as ensuring sustainable growth. We do this by providing resources to our members, businesses and individuals who are linked to aquaculture. We advocate for improve production practices through our partnerships with businesses, communities and State Agencies.

## Vision

Contribute to sustainable development of Ghana's aquaculture sector.

## Mission

Our mission is to promote responsible and sustainable aquaculture practices through advocacy, training and innovation.

Become a member of the Chamber of Aquaculture Ghana by completing membership form at :
